Need help choosing the best suited insurance-compliant leak protection system for you?

Water Security Is Not “One Size Fits All”

That's why we offer an “Options & Credit” property assessment review service, with discounted options that best fit your plumbing system and lifestyle.

For a nominal rebatable \$75 fee, we will provide, an assessment form for your plumber to complete onsite for our review, and your most compatible options and critical installation-related information. The fee will be rebated back to you as an additional discount on the cost of the quoted system you choose to purchase from WSS.

Just click the “Options & Credit” button under Property Services at www.WSSUS.com or call (888) 356-5644 for more info!

Leak detection and water shutoff

Whole house Flow-Based Systems

Whole house Sensor-Based Systems

Whole house Flow-Based Systems

As distributors and industry consultants, we provide guidance and variety for those seeking insurance-approved water protection products at insurance partner discounts, based on your needs and budget!

Hanover policyholders are entitled to substantial product discounts through Water Security Solutions by mentioning Hanover when ordering a system or using the Options & Credit service.
