

# Phyn Smart Water Sensor

Get alerted to water leaks, frozen temperatures and high and low humidity the moment they occur. The Phyn Smart Water Sensor will alert you audibly, visually and with SMS and app notifications.

## Wi-Fi

Works with Wi-Fi. No additional hubs required.

## Battery powered

Up to 2-year battery life\*. (Batteries included)

## Easy set up

Easy set up with the free Phyn App. No subscriptions.

## Leak Alert

Get notified of leaks as soon as they happen. When the Sensor comes in contact with water you get SMS, app alerts audible alarm and the device flashes its LED light.

## Humidity Alert

Set your own thresholds to protect the areas of your home that are vulnerable to potentially damaging and unhealthy high or low humidity.

## Freeze Alert

Set up your own alert threshold in the free Phyn app. Take comfort knowing that you can take action to avoid damage from frozen temperatures.

## Technical Specifications

### In the box

Phyn Smart Water Sensor(s)  
AA batteries  
Quick Start Guide

### Features

SMS and app leak notifications  
Audible alarm  
Flashing LED alerts  
Customizable alert settings for:  
-Temperature  
-High and Low Humidity  
Battery life optimization  
Low battery alert

### Certifications

FCC  
ICES  
CE  
RoHS  
REACH  
CP65  
WEEE

### Location

Indoor use only

### Power

Battery Power: Up to 2-years battery life

### Connectivity Requirements

Wi-Fi connection  
Phone or tablet with iOS14+, Android 10+  
SMS text messaging  
Phyn app

### Wireless

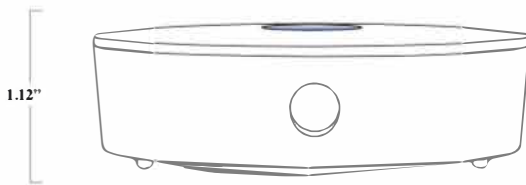

802.11 b/g/n @2.4Ghz

### Sensors

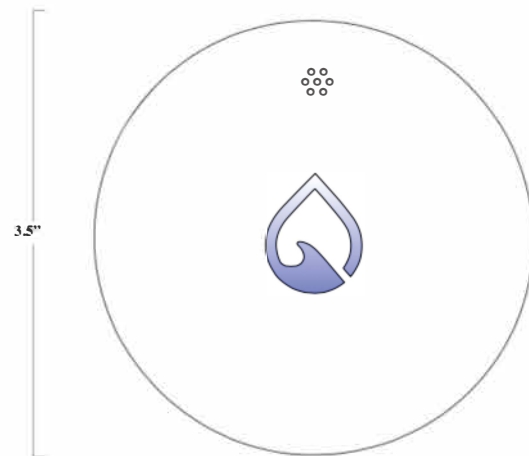

Water  
Temperature  
Humidity

### Compatibility

Phyn Extension Node  
Phyn Sensor Cable(s)  
Phyn Plus  
Phyn Smart Water Assistant
