Water damage claims are

5x

more likely than theft

6x

more likely than fire

Upon installation of the Smart Water Shutoff, about 50% of homeowners immediately discover a leak they didn't know they had.

flo Smart
Water Shutoff
BY MOEN

Proactive Leak Detection

Installs on the main water line, and proactively monitors the home for leaks as small as a drop per minute. Uses FloSense™ AI technology, and measures all aspects of a home's plumbing health such as flow rate, temperature and pressure.

24/7 MONITORING

Constantly monitors your home's water usage, detecting leaks of all sizes

DAILY HEALTH TESTS

Runs daily Health Tests, using MicroLeak™ technology, to catch pinhole leaks that often go undetected

SMARTPHONE CONTROL

Sends alerts in real-time to your Flo by Moen App if an issue is detected. Also, turn your home's water on/off remotely through the app

AUTOMATIC SHUT-OFF

Automatically shuts off the water if a catastrophic water event is detected to help prevent damage
